American Journal of Physiology: Regulatory, Integrative and Comparative Physiology

KEY TO CATEGORIES: **1.** Comparative Physiology *Regulation and Integration in:* **2.** Autonomic Physiology; **3.** Behavior; **4.** Cardiovascular Physiology; **5.** Endocrinology; **6.** Energetics; **7.** Fluids and Electrolytes; **8.** Functional Morphology; **9.** Ingestion; **10.** Periodicity; **11.** Respiration; **12.** Temperature

No. 1. JANUARY 1990

CATEGORY

EDITORIAL

Reflections on the recent past and a look to the future
W. H. Dantzler R1

Evidence for presence of a new type of neurohypophysial hormone receptor in fish gill epithelium
M. E. Guibbolini and B. Lahlou R3

2,4 Urinary bladder and hindlimb stimuli inhibit T_1–T_6 spinal and spinoreticular cells
S. F. Hobbs, U. T. Oh, T. J. Brennan, M. J. Chandler, K. S. Kim, and R. D. Foreman R10

Sepsis does not alter red blood cell glucose metabolism or Na^+ concentration: a ^2H-, ^{23}Na-NMR study
R. S. Hotchkiss, S.-K. Song, C. S. Ling, J. J. H. Ackerman, and I. E. Karl R21

Regional hemodynamic effects of neuromedin U in conscious rats
S. M. Gardiner, A. M. Compton, T. Bennett, J. Domin, and S. R. Bloom R32

Effect of intestinal bypass on the expression of actin mRNA in ileal smooth muscle
M. Lai, D. B. Thomason, and N. W. Weisbrodt R39

Sympathetic modulation of cholinergic transmission in cat vesical ganglia is mediated by α_1- and α_2-adrenoceptors
J. R. Keast, M. Kawatani, and W. C. De Groat R44

5,6 Role of prolactin in lactation-induced changes in brown adipose tissue
E. Chan and R. Swaminathan R51

4,5,7 Autoradiographic localization of atrial and brain natriuretic peptide receptors in rat brain
J. Brown and A. Czarnecki R57

5,4,7 Cortisol inhibition of vasopressin and ACTH responses to arterial hypotension in conscious dogs
H. Raff, M. M. Skelton, and A. W. Cowley, Jr. R64

Electrophysiological evidence that systemic angiotensin influences rat area postrema neurons
S. Papas, P. Smith, and A. V. Ferguson R70

Atrial appendectomy reduces ANF but not sodium excretion in acute vasopressin hypertension
R. S. Zimmerman, R. W. Barbee, A. Martinez, A. A. MacPhee, and N. C. Trippodo R77

7 Mechanism of prostaglandin E_2-induced increase of proximal sodium reabsorption in the rat
Y. Kinoshita and F. G. Knox R82

Enhanced thermogenic response to epinephrine after 48-h starvation in humans
P. I. Mansell, I. W. Fellows, and I. A. Macdonald R87

Effect of vasopressin on production of cerebrospinal fluid: possible role of vasopressin (V_1)-receptors
F. M. Faraci, W. G. Mayhan, and D. D. Heistad R94

AVP and dDAVP in rabbit cortical collecting tubule: a comparative time-course study
M. Leite, Jr. and W. N. Suki R99

Regulation of lung liquid secretion by arginine vasopressin in fetal sheep
M. J. Wallace, S. B. Hooper, and R. Harding R104

7 Basal membrane uptake in potassium-secreting cells of midgut of tobacco hornworm (*Manduca sexta*)
A. C. Chao, A. R. Koch, and D. F. Moffett R112

7,5 Propranolol restores phosphaturic effect of PTH in short-term phosphate deprivation
A. Rybczynska, A. Hoppe, and F. G. Knox R120

Weight cycling in female rats subjected to varying meal patterns
J. Wheeler, R. Martin, D. Lin, F. Yakubu, and J. O. Hill R124

Fetal swallowing: response to systemic hypotension
M. G. Ross, D. J. Sherman, M. Gore Ervin, L. Day, and J. Humme R130

Effects of day length on sheep neuroendocrine estrogen and progestin receptors
E. L. Bittman and J. D. Blaustein R135

Spontaneous drinking: is it stimulated by hypertonicity or hypovolemia?
T. R. Houpt and C. R. Anderson R143

Hypertonic and hypovolemic stimulation of thirst in pigs
C. R. Anderson and T. R. Houpt R149

2,4,5 Release of vasopressin and oxytocin by paraventricular stimulation in rats
R. Landgraf, T. Malkinson, T. Horn, W. L. Veale, K. Lederis, and Q. J. Pittman R155

2,5,8 Localization of vagal preganglionics that stimulate insulin and glucagon secretion
H.-R. Berthoud, E. A. Fox, and T. L. Powley R160

Chronic cervical spinal cord injury and autonomic hyperreflexia in rats
J. W. Osborn, R. F. Taylor, and L. P. Schramm R169

In vitro osmosensitive hypothalamic neurons from hypertensive and normotensive rats
K. A. Travis and J. A. Boulant R175

Somnogenic, pyrogenic, and hematologic effects of bacterial peptidoglycan
L. Johannsen, L. A. Toth, R. S. Rosenthal, M. R. Opp, F. Obal, Jr., A. B. Cady, and J. M. Krueger R182

2,4 Angiotensin augments epinephrine release in pithed rats fed a low-sodium diet
R. R. Vollmer, S. P. Corey, S. A. Meyers, E. M. Stricker, and S. J. Fluharty R187

Metabolic effects of aminophylline in weanling rats
M. G. Vonlanthen, R. J. McCarter, and D. T. Casto R193

Counteracting effects of urea and betaine in mammalian cells in culture
P. H. Yancey and M. B. Burg R198

Extracellular pH and suppression of electrical activity during anoxia in turtle and rat brain
Z.-C. Feng, T. J. Sick, and M. Rosenthal R205

Dexfenfluramine: action with estradiol on food intake and body weight in ovariectomized rats
A.-M. Souquet and N. E. Rowland R211

9,6,3 Fuel partitioning and food intake: role for mitochondrial fatty acid transport
M. I. Friedman, I. Ramirez, C. R. Bowden, and M. G. Tordoff R216

7 Stimulation of H^+ secretion by CO_2 in turtle bladder: role of intracellular pH, exocytosis, and calcium
J. A. L. Arruda, G. Dytko, and Z. Talor R222

ANF and postprandial control of sodium excretion in dogs with compensated heart failure
D. Villarreal, R. H. Freeman, and M. W. Brands R232

Effects of outflow pressure and vascular volume loading on thoracic duct lymph flow in adult sheep
R. A. Brace and G. J. Valenzuela R240

Subcortical sites mediating sympathetic responses from insular cortex in rats
D. F. Cechetto and S. J. Chen R245

10 Involvement of proteins in light resetting ocular circadian oscillators of *Aplysia*
U. Raju, S. J. Yeung, and A. Eskin R256

1,4 Ontogeny of vasoconstrictor neurohypophysial hormone function in rats
L. K. Kullama, V. Balaraman, J. R. Claybaugh, W. M. Ichimura, and K. T. Nakamura R263

Effects of ileal transposition on food intake, dietary preference, and weight gain in Zucker obese rats
D. C. Chen, J. S. Stern, and R. L. Atkinson R269

SPECIAL COMMUNICATIONS

Computer-assisted long-term measurements of urinary output and other biological data
H. W. Reinhardt, Ü. Palm, R. Mohnhaupt, K. Dannenberg, and W. Boemke R274

RAPID COMMUNICATIONS

Extracellular dehydration during pregnancy increases salt appetite of offspring
S. Nicolaidis, O. Galaverna, and C. H. Metzler R281

Maternal pinealectomy alters the daily pattern of fetal breathing in sheep
I. C. McMillen, R. Nowak, D. W. Walker, and I. R. Young R284

LETTERS TO THE EDITOR

Metabolic control in exercising skeletal muscle
B. Chance and K. LaNoue; R. J. Connett and C. R. Honig R288

No. 2. FEBRUARY 1990

CATEGORY

INVITED COMMENTARY

Missing data in two-way analysis of variance
B. K. Slinker and S. A. Glantz R291

1,7,8 Body size, medullary thickness, and urine concentrating ability in mammals
C. A. Beuchat R298

4,7,12 Effects of hyperosmolality and diuretics on heat-induced limb vasodilation in baboons
D. W. Proppe R309

4,7,12 Effect of water or saline intake on heat-induced limb vasodilation in dehydrated baboons
K. L. Ryan and D. W. Proppe R318

2,4 Cardiovascular effects of opioid antagonist naloxone in rostral ventrolateral medulla of rabbits
D. A. Morilak, G. Drolet, and J. Chalmers R325

12,5 Antiserum against tumor necrosis factor enhances lipopolysaccharide fever in rats
N. C. Long, S. L. Kunkel, A. J. Vander, and M. J. Kluger R332

5,7 Thyroxine transport from blood to brain via transthyretin synthesis in choroid plexus
G. Schreiber, A. R. Aldred, A. Jaworowski, C. Nilsson, M. G. Achen, and M. B. Segal R338

Apparent influence of metabolism on cardiac isomyosin profile of food-restricted rats
G. S. Morris, D. G. Surdyka, F. Haddad, and K. M. Baldwin R346

1,8 Evidence of a slow-to-fast fiber type transition in skeletal muscle from spontaneously hypertensive rats
L. Ben Bachir-Lamrini, B. Sempore, M.-H. Mayet, and R. J. Favier R352

4,7,2 Parabrachial nucleus modulation of vasopressin release
L. E. Ohman, R. E. Shade, and J. R. Haywood R358

Brain glucoprivation and ketoprivation do not promote ingestion in the suckling rat pup
M. Leshem, F. W. Flynn, and A. N. Epstein R365

Neuropeptide Y in the hypothalamus: effect on corticosterone and single-unit activity
H. E. Albers, J. E. Ottenweller, S. Y. Liou, M. D. Lumpkin, and E. R. Anderson R376

2,4 Inhibitory effect of renal nerve activity during canine anaphylactic hypotension
S. Koyama, T. Fujita, H. Uematsu, T. Shibamoto, M. Aibiki, and S. Kojima R383

Renin secretion by fetal lamb kidneys in vitro
N. M. Rawashdeh, J. C. Rose, and D. Ray Kerr R388

2,5,12 Diazepam inhibits stimulating effect of cooling preoptic area on antibody production
M. Banet and S. Brandt R393

7	Diluting segment in kidney of dogfish shark. I. Localization and characterization of chloride absorption *P. A. Friedman and S. C. Hebert*	R398
7	Diluting segment in kidney of dogfish shark. II. Electrophysiology of apical membranes and cellular resistances *S. C. Hebert and P. A. Friedman*	R409
	Regulation of the level of uncoupling protein in brown adipose tissue by insulin *A. Géloën and P. Trayhurn*	R418
4	Hemodynamic effects of calcitonin gene-related peptide in spontaneously hypertensive rats *K. Ando, B. L. Pegram, and E. D. Frohlich*	R425
5,2,6	Adrenergic effects on thyroxine 5′-deiodinase in brown adipose tissue of lean and *ob/ob* mice *A.-L. Kates, G. Zaror-Behrens, and J. Himms-Hagen*	R430
3,7,9	Angiotensin II mediates drinking elicited by eating in the rat *F. S. Kraly and R. Corneilson*	R436
12,2,5	Centrally acting vasopressin contributes to endotoxin tolerance *M. F. Wilkinson and N. W. Kasting*	R443
4,2	GABAergic responses in ventrolateral medulla in spontaneously hypertensive rats *J. K. Smith and K. W. Barron*	R450
4,6	Variable series elasticity accounts for Fenn effects of skeletal and cardiac muscles *H. Suga*	R457
5,6,7	Effect of Ca^{2+}-channel agonists and antagonists on skeletal muscle sugar transport *M. V. Westfall and M. M. Sayeed*	R462
4,5,7	Temporal relationships among fetal urine flow, ANF, and AVP responses to hypertonic infusions *L. K. Miner, R. A. Brace, and C. Y. Cheung*	R469
6,9	Ventromedial hypothalamic lesions abolish compensatory reduction in energy expenditure to weight loss *T. R. Vilberg and R. E. Keesey*	R476
7,4	Dissociation of renal interstitial hydrostatic pressure and natriuresis of atrial natriuretic factor *A. A. Khraibi, D. M. Heublein, J. C. Burnett, Jr., and F. G. Knox*	R481
4,5,7	Renin response to hemorrhage in conscious rats: effect of acute reductions in hematocrit *H. Raff*	R487
5,7	Osmotic regulation of vasopressin and oxytocin release is rate sensitive in hypothalamoneurohypophysial explants *C. Yagil and C. D. Sladek*	R492
1,4,5	Enzymes of the kallikrein-kinin system in rainbow trout *D. W. Lipke and K. R. Olson*	R501
1,4,5	Generation of vasoactive substances in trout and rat plasma by trypsin and kallikrein *D. W. Lipke, K. D. Meisheri, and K. R. Olson*	R507
1,4,5	Vascular effects of kinins in trout and bradykinin metabolism by perfused gill *D. W. Lipke, S. Oparil, and K. R. Olson*	R515
	Identification of vagal preganglionics that mediate cephalic phase insulin response *H.-R. Berthoud and T. L. Powley*	R523
4,5,7	Regulation of plasma atrial natriuretic peptide by the central nervous system *A. L. Rauch, M. F. Callahan, V. M. Buckalew, Jr., and M. Morris*	R531
	Somnogenic, pyrogenic, and hematologic effects of experimental pasteurellosis in rabbits *L. A. Toth and J. M. Krueger*	R536
2,4,5	Renin-angiotensin system and opioids during acute hemorrhage in conscious rabbits *J. C. Schadt and R. R. Gaddis*	R543
	Effect of gastrointestinal flora on body temperature of rats and mice *M. J. Kluger, C. A. Conn, B. Franklin, R. Freter, and G. D. Abrams*	R552

No. 3. MARCH 1990

EDITORIAL REVIEW

6,12,1 Life in a frozen state: adaptive strategies for natural freeze tolerance in amphibians and reptiles
K. B. Storey R559

Model of placental glucose consumption and glucose transfer
W. W. Hay, Jr., R. A. Molina, J. E. DiGiacomo, and G. Meschia R569

4,5,10 Ultradian adrenocortical and circulatory oscillations in conscious dogs
L. A. Benton and F. E. Yates R578

12,5,3 Antiserum against tumor necrosis factor increases stress hyperthermia in rats
N. C. Long, A. J. Vander, S. L. Kunkel, and M. J. Kluger R591

2,4 Central nervous system cardiovascular actions of CRF in sinoaortic-denervated rats
J. M. Overton, G. Davis-Gorman, and L. A. Fisher R596

1,12,4 Facial vessels of desert camel (*Camelus dromedarius*): role in brain cooling
A. O. Elkhawad, N. S. Al-Zaid, and M. N. Bou-Resli R602

6,12 Weight gain and brown fat composition of mice selected for high body weight fed a high-fat diet
M. Desautels and R. A. Dulos R608

7,2,4 Pentobarbital anesthesia alters renal actions of α-hANP in dogs
J. B. Madwed and B. C. Wang R616

2,4,5 Modulation of baroreflex by varying insulin and glucose in conscious dogs
D. E. Fitzovich and D. C. Randall R624

10,3 Sleep regulation in rats during early development
P. Alföldi, I. Tobler, and A. A. Borbély R634

4,5 Response of prolactin to hemorrhage is similar to that of adrenocorticotropin in swine
D. E. Carlson, H. G. Klemcke, and D. S. Gann R645

2,10 Time course of EEG power density during long sleep in humans
D.-J. Dijk, D. P. Brunner, and A. A. Borbély R650

9,3 Ingestion rate as an independent variable in the behavioral analysis of satiation
J. M. Kaplan, A. C. Spector, and H. J. Grill R662

2,4,5 Pituitary-adrenal and adrenomedullary responses to noise in awake dogs
W. C. Engeland, P. Miller, and D. S. Gann R672

5,7,11 Triggering of erythropoietin production by hypoxia is inhibited by respiratory and metabolic acidosis
K.-U. Eckardt, A. Kurtz, and C. Bauer R678

In vivo mycocyte sodium activity and concentration during hemorrhagic shock
J. J. C. Chiao, J. P. Minei, G. T. Shires III, and G. T. Shires R684

5,7 Release of ANP and its physiological role in pulmonary injury due to HCl
G. Wakabayashi, M. Ueda, N. Aikawa, M. Naruse, and O. Abe R690

9,5,3 Influence of serum glucose on glutamate decarboxylase activity in the ventromedial nucleus of rats
J. L. Beverly and R. J. Martin R697

4,5,7 Vasopressin and atrial natriuretic peptide release in cardiopulmonary denervated dogs
Y. Shiraishi, S. Fujimura, M. Handa, T. Kimura, K. Ota, and T. Nakada R704

1,6,12 Regulation of glycolysis in the pectoralis muscles of seasonally acclimatized American goldfinches exposed to cold
R. L. Marsh, W. R. Dawson, J. J. Camilliere, and J. M. Olson R711

Influence of atrial natriuretic factor on autonomic control of heart rate
D. J. Atchison and U. Ackermann R718

8 Suspension effects on rat femur-medial collateral ligament-tibia unit
A. C. Vailas, R. F. Zernicke, R. E. Grindeland, and K.-C. Li R724

4,7 Hematocrit modulates response of ANP to volume expansion in immature rats
R. L. Chevalier, B. A. Thornhill, M. J. Peach, and R. M. Carey R729

Norepinephrine and neuropeptide Y: vasoconstrictor cooperation in vivo and in vitro
C. Wahlestedt, R. Håkanson, C. A. Vaz, and Z. Zukowska-Grojec R736

12,4, 10 Measurements of core temperature in spontaneously hypertensive rats by radiotelemetry
D. L. Berkey, K. W. Meeuwsen, and C. C. Barney R743

3,5,6 Decreased availability of metabolic fuels induces anestrus in golden hamsters
J. E. Schneider and G. N. Wade R750

1,6 Mitochondrial and peroxisomal fatty acid oxidation in elasmobranchs
C. D. Moyes, L. T. Buck, and P. W. Hochachka R756

7,5 Physiological regulation of the renal vasopressin receptor-effector pathway in dogs
L. B. Kinter, N. Caldwell, S. Caltabiano, C. Winslow, D. P. Brooks, and W. F. Huffman R763

6 Training improves glucose homeostasis in rats during exercise via glucose production
C. M. Donovan and K. D. Sumida R770

Angiotensin II binding sites in aortic endothelium of domestic fowl
J. N. Stallone, H. Nishimura, and A. Nasjletti R777

12,4,2 Cerebrospinal fluid pressure in conscious rats during prostaglandin E_1 fever
T. J. Malkinson, K. E. Cooper, and W. L. Veale R783

2,4,7 Metabolic activation of efferent pathways from the rat area postrema
P. M. Gross, D. S. Wainman, S. W. Shaver, K. M. Wall, and A. V. Ferguson R788

1,12 Role of interleukin 6 in fever in rats
L. G. LeMay, A. J. Vander, and M. J. Kluger R798

6,7,11 Deuterium and oxygen-18 abundance in birds: implications for DLW energetics studies
P. Tatner R804

MODELING METHODOLOGY FORUM

Light and target distance interact to control pupil size
G. A. Myers, S. Barez, W. C. Krenz, and L. Stark R813

RAPID COMMUNICATIONS

3,7,9 Chemospecific deficits in taste detection after selective gustatory deafferentation in rats
A. C. Spector, G. J. Schwartz, and H. J. Grill R820

No. 4. APRIL 1990

CATEGORY

2,4 Altered sensitivity of osmotically stimulated vasopressin release in quadriplegic subjects
B. M. Wall, H. H. Williams, D. N. Presley, J. T. Crofton, E. G. Schneider, L. Share, and C. R. Cooke R827

12,2 Circadian variation of thermoregulatory responses during exercise in rats
H. Tanaka, M. Yanase, K. Kanosue, and T. Nakayama R836

12,2 Effects of pyrogen administration on temperature regulation in exercising rats
H. Tanaka, K. Kanosue, M. Yanase, and T. Nakayama R842

3,12 Effect of hematocrit on behavioral thermoregulation of the toad *Bufo marinus*
S. C. Wood R848

Blood pressure in streptozotocin-treated Brattleboro and Long-Evans rats
K. C. Tomlinson, S. M. Gardiner, and T. Bennett R852

2,4 Vasopressinergic augmentation of cardiac baroreceptor reflex in conscious rats
B. L. Brizzee and B. R. Walker R860

7,5 Micropuncture study of the avian kidney: infusion of mannitol or sodium chloride
J. R. Roberts and W. H. Dantzler R869

Effects of desipramine hydrochloride on peripheral sympathetic nerve activity
M. D. Cohen, J. Finberg, M. Dibner-Dunlap, S. N. Yuih, and M. D. Thames R876

Urea transport across urinary bladder and salt acclimation in toad (*Bufo viridis*)
S. Shpun and U. Katz R883

7,6 Transuterine ion movement and electrical potential difference in pregnant guinea pigs
P. S. Dale, T. G. McNaughton, L. A. Power, R. D. Gilbert, and G. G. Power R889

1,4 Effects of acute and chronic baroreceptor denervation on diving responses in ducks
F. M. Smith and D. R. Jones R895

Glycogenesis from lactate in rabbit skeletal muscle fiber types
M. J. Pagliassotti and C. M. Donovan R903

4 Regional hemodynamic effects of endothelin-2 and sarafotoxin-S6b in conscious rats
S. M. Gardiner, A. M. Compton, and T. Bennett R912

Alteration of antioxidant enzymes with aging in rat skeletal muscle and liver
L. L. Ji, D. Dillon, and E. Wu R918

5,7 Estrogen-induced modulation of hypothalamic osmoregulation in female rats
T. Akaishi and Y. Sakuma R924

Cardiovascular and neuroendocrine responses to baroreceptor denervation in baboons
R. E. Shade, V. S. Bishop, J. R. Haywood, and C. K. Hamm R930

Maternal–fetal distribution of mercury (^{203}Hg) released from dental amalgam fillings
M. J. Vimy, Y. Takahashi, and F. L. Lorscheider R939

3,9 Central nervous system injection of dynorphin-(1—13) overrides gastric satiety factors in sheep
M. A. Della-Fera, C. A. Baile, B. D. Coleman, J. L. Miner, and J. A. Paterson R946

Acetylcholinesterase inhibitor, pyridostigmine bromide, reduces skin blood flow in humans
L. A. Stephenson and M. A. Kolka R951

6,7 A distributed model of fluid and mass transfer in peritoneal dialysis
E. L. Seames, J. W. Moncrief, and R. P. Popovich R958

7,2,5 Differential osmoresponsiveness of periventricular neurons in duck hypothalamus
K. Kanosue, H. Schmid, and E. Simon R973

2,4 Relation of plasma norepinephrine and sympathetic traffic during hypotension in humans
R. F. Rea, D. L. Eckberg, J. M. Fritsch, and D. S. Goldstein R982

5,6 Ethanol attenuates endotoxin-enhanced glucose utilization
P. E. Molina, C. H. Lang, G. J. Bagby, and J. J. Spitzer R987

3,9,10 Phase-shifting the light-dark cycle resets the food-entrainable circadian pacemaker
J. E. Ottenweller, W. N. Tapp, and B. H. Natelson R994

Somatostatin and innervation of the heart of the snake *Elaphe obsoleta*
J. A. Donald, J. E. O'Shea, and H. B. Lillywhite R1001

Different effects of sodium or chloride depletion on angiotensin II receptors in rats
P. E. Ray, E. Castrén, E. J. Ruley, and J. M. Saavedra R1008

5,11,4 Assessing the characteristic between length of hypoxic exposure and serum erythropoietin levels
C. Cahan, P. L. Hoekje, E. Goldwasser, M. J. Decker, and K. P. Strohl R1016

Possible role of basolateral cell membrane in proximal renal tubule osmoregulation
D. Terreros, H. Kanli, and J. Coombs R1022

Hemodynamic responses to leukotriene receptor stimulation in conscious rats
D. E. Allen and M. Gellai R1034

1,3,11 No effect of prostaglandin synthesis inhibition on muscle reflexes in fetal lambs
D. Walker R1213

1,7 Cell volume regulation by skate erythrocytes: role of potassium
K. G. Dickman and L. Goldstein R1217

4,7,8 A direct effect of atrial peptide on arterioles of the terminal microvasculature
I. H. Sarelius and V. H. Huxley R1224

4,3,5 Hemodynamic and behavioral effects of angiotensin II in conscious sheep
B. A. Breuhaus and J. E. Chimoskey R1230

1,9 Intestinal absorption and metabolism of ascorbic acid in rainbow trout
R. C. Rose and J.-L. Choi R1238

Role of catecholamines in regulating ovine median eminence blood flow
R. B. Page, M. Gropper, E. Woodard, J. Townsend, S. Davis, and R. M. Bryan R1242

Central administration of atrial peptide decreases sympathetic outflow in rats
H. D. Schultz, M. K. Steele, and D. G. Gardner R1250

7 Model study of placental water transfer and causes of fetal water disease in sheep
J. J. Faber and D. F. Anderson R1257

2,4,8 Inhibition of rostral VLM by baroreceptor activation is relayed through caudal VLM
S. K. Agarwal, A. J. Gelsema, and F. R. Calaresu R1271

4,5,7 Hemodynamic, renal, and endocrine actions of ANF in sheep: effect of 24-h, low-dose infusions
C. J. Charles, E. A. Espiner, V. A. Cameron, and A. M. Richards R1279

Renal and hormonal responses to prolonged atrial stretch
S. Kaufman R1286

1,6,12 Increase in cytochrome oxidase capacity of BAT and other tissues in cold-acclimated gerbils
M. Bourhim, H. Barre, S. Oufara, Y. Minaire, J. Chatonnet, F. Cohen-Adad, and J.-L. Rouanet R1291

No. 6. JUNE 1990

CATEGORY

INVITED COMMENTARY

1,4,5 Resource sharing in rat gestation: role of maternal cardiovascular hemodynamics
D. A. Blizard and T. G. Folk R1299

---

1 Turnover of serotonin in brain of an anoxia-tolerant vertebrate, the crucian carp
G. E. Nilsson R1308

7,1,4 Measurements of blood flow to individual glomeruli in the ophidian kidney
S. D. Yokota and W. H. Dantzler R1313

2,7,9 Cyclic nucleotide responses in control and cystic fibrosis labial glands
B. J. Allan, K. T. Izutsu, B. W. Ramsey, M. M. Schubert, W. Y. Ensign, and E. L. Truelove R1320

8 Spaceflight effects on biomechanical and biochemical properties of rat vertebrae
R. F. Zernicke, A. C. Vailas, R. E. Grindeland, A. Kaplansky, G. J. Salem, and D. A. Martinez R1327

7,4 Role of renal interstitial hydrostatic pressure in natriuretic response to ANP
J. García-Estañ and R. J. Roman R1333

2 Fetal adrenal medulla catecholamine response to hypoxia-direct and neural components
C. Y. Cheung R1340

6,11 Reappraisal of the Weir equation for calculation of metabolic rate
P. I. Mansell and I. A. Macdonald R1347

2,6,7 Pharmacological responsiveness of dissociated native and cultured eccrine secretory coil cells
H. Yokozeki, K. Saga, F. Sato, and K. Sato R1355

1,7,11 Acid-base-electrolyte balance responses to catecholamine antagonists in *Ambystoma tigrinum*
D. F. Stiffler, M. E. Kopecky, M. L. Thompson, and R. G. Boutilier R1363

Effect of cholecystokinin on taste responsiveness in rats
B. K. Giza, T. R. Scott, and R. F. Antonucci R1371

7,4 Renal interstitial hydrostatic pressure and ANF in exaggerated natriuresis of the SHR
A. A. Khraibi, D. M. Heublein, J. C. Burnett, Jr., and F. G. Knox R1380

9,11,1 Fetal swallowing: correlation of electromyography and esophageal fluid flow
D. J. Sherman, M. G. Ross, L. Day, and M. Gore Ervin R1386

2,9,3 Vagal sensory neurons are required for lipoprivic but not glucoprivic feeding in rats
S. Ritter and J. S. Taylor R1395

1,4 Vascular reactivity of the coronary artery in rainbow trout (*Oncorhynchus mykiss*)
S. A. Smaïl, C. MacDonald, and A. P. Farrell R1402

4,2 Influence of acid-base status on plasma catecholamines during exercise in normal humans
S. R. Goldsmith, C. Iber, C. D. McArthur, and S. F. Davies R1411

4,2 Baroreflex control of sympathetic outflow in pregnant rats: effects of captopril
M. E. Crandall and C. M. Heesch R1417

4,7 Cardiovascular, renal, and endocrine responses in male quadriplegics during head-out water immersion
F. Tajima, S. Sagawa, J. Iwamoto, K. Miki, B. J. Freund, J. R. Claybaugh, and K. Shiraki R1424

1,4 Cardiovascular changes after closure of uterine circulation during pregnancy
G. J. Valenzuela, S. Kim, and H. F. Rauld R1431

1 Facilitated transport of L-phenylalanine across blood-nerve barrier of rat peripheral nerve
K. C. Wadhwani, Q. R. Smith, and S. I. Rapoport R1436

4,5,7 Atrial natriuretic peptide induces sustained natriuresis in conscious dogs
H. L. Mizelle, D. A. Hildebrandt, C. A. Gaillard, M. W. Brands, J.-P. Montani, M. J. Smith, Jr., and J. E. Hall R1445

4 Central opioid modulation of fetal cardiovascular function: role of μ- and δ-receptors
H. H. Szeto, Y.-S. Zhu, and L.-Q. Cai R1453

1,7 Somatostatin mediates bombesin inhibition of chloride secretion by rectal gland
P. Silva, S. Lear, S. Reichlin, and F. H. Epstein R1459

2,4,5 Pressor and sympathetic responses to dorsal raphe nucleus infusions of TRH in rats
J. Mattila and R. D. Buñag R1464

Area postrema: essential for support of arterial pressure after hemorrhage in rats
K. M. Skoog, M. L. Blair, C. D. Sladek, W. M. Williams, and M. L. Mangiapane R1472

1,4,11 Relationships between breathing activity and heart rate in fetal baboons
M. M. Myers, W. Fifer, J. Haiken, and R. I. Stark R1479

7 Role of nonworking muscle on blood metabolites and ions with intense intermittent exercise
M. I. Lindinger, G. J. F. Heigenhauser, R. S. McKelvie, and N. L. Jones R1486

Adaptation to temperature: phospholipid synthesis in hepatocytes of rainbow trout
J. R. Hazel R1495

17β-Estradiol augments endothelium-dependent contractions to arachidonic acid in rabbit aorta
V. M. Miller and P. M. Vanhoutte R1502

Micturition reflexes in decerebrate and spinalized neonatal rats
M. N. Kruse and W. C. de Groat R1508

SPECIAL COMMUNICATIONS

An improved method for recording blood pressure in the tethered monkey
M. I. Talan and B. T. Engel R1512

RAPID COMMUNICATIONS

2,4,5 Noxious somatic stimuli excite neurosecretory vasopressin cells via A1 cell group
T. A. Day and J. R. Sibbald R1516
